DECISION SEEMS TO FAVOR CHRISTIAN SCIENCE

(By Associated Press.)

COLUMUS, O., Nov. 17.—The Supreme Court to-day rendered a decision which is taken to mean that Christian science may be practiced in Ohio. Some time ago, a family by the name of Bishop, in Hamilton, O., was tried and acquitted on a charge of manslaughter for having permitted a child to die without giving it medical aid. The Biate carried the case up on exception, and to-day the Supreme Court overruled the exceptions.

Finally the negro, possibly finding the resistance more than he had counted upon, told her that if she would give him all the money she had he would leave her. She said she would do so, and that she had it hidden in the next room. He asked her if that room had a door opening outside. With a spiendid grass of the situation she replied that it did not, though it did. He unlocked the door leading into this room, and she entered it, instantly dashing out at the other side. She was now in the yard, and was making up the hill to the neighbors' houses as fast as possible, acreaming with all the breath she had left from running. Of course, the negro was watching her, and sought something to throw. He found a large rock on the threshold, used for keeping the door open. Hurling it with much force, his aim was true. The blow came between the shoulders and knocked her down. Already people on the hill had heard and ware coming. The negro fied. Some minutes after William Shors, white, a driver, saw a man answering the description coming through the valley towards Richmond. A little later he was seen by William Covington, colored, climbing the hill into this city. Here the trail was lost.
